Local Organizations in Islands District

17 October 2012

Dear Sir/Madam,

**Greening Master Plan for Islands District  
Community Forum**

The Civil Engineering and Development Department is now partnering with the Islands District Greening Master Plan District Participation Group to develop a Greening Master Plan (GMP) for the Islands District. The GMP aims to define the overall greening framework of the area, and serves as a guide for all parties involved in planning, design and implementation of greening works. In addition to identifying suitable locations for planting, the GMP will establish the greening theme and propose suitable planting species.

To ensure that the GMP will meet the needs of residents and stakeholders, we would like to listen to your views and invite you to attend the community forum. The details are given in the attached poster. If you are interested to join the forum, please complete and return the enrollment form to our Consultants, ACLA Limited - Hyder Consulting Limited JV, via fax, mail or email before 22 October 2012. We will take account of all the views received in the preparation of the GMP.

Yours faithfully,

(YUNG Cho-leung)

Chief Engineer/Land Works

Civil Engineering and Development Department

Encl.
